

Priscilla Schaffer Lecture

Tuesday, July 27

08:30 – 09:00

***Questions of Human Cytomegalovirus Coexistence***

Felicia Goodrum

University of Arizona, USA

Felicia Goodrum graduated with her Ph.D. from Wake Forest University and then trained as a postdoctoral fellow with Thomas Shenk at Princeton University where she was a Leukemia and Lymphoma Society Fellow and Special Fellow. In 2006, Felicia joined the faculty at the University of Arizona and BIO5 Institute in Tucson. Felicia is the recipient of the Pew Scholar in Biomedical Sciences Award and the Presidential Award for Early Career Scientists and Engineers. Felicia's work throughout her career has focused on complex interaction between viruses and their host and is currently focused on the mechanisms of viral persistence of human cytomegalovirus.
